

European Academy
for Taxes, Economics & Law

Certificate

We hereby confirm that

Sylvia Lehmann

was a speaker at the European Conference

Waste Management in the Circular Economy 2017

hosted by the European Academy for Taxes, Economics & Law from 27th – 28th November 2017 in Berlin.

Essential content

- The Revision of the Circular Economy Legislation – Practical Implications for Public Authorities and Waste Companies
- Instruments for Efficient Materials Management and Circular Economy
- Towards Non-Toxic Material Cycles
- Opportunities and Challenges of the Revised Circular Economy Package for an Environmental Services Company
- Extended Producer Responsibility – New Rules and Guidelines
- The New Monitoring Framework: Measuring Progress Towards a More Circular Economy
- The Transition of Circular Economy to Practice – Applied Policy and Planning Instruments in Waste Management
- The Enabling Drivers of Circular Economy – The Recycling Perspective
- New Calculation Method for Measurement of Recycling Rates and Influence on Recycling Quotas
- How to Overcome Difficulties with Calculation of Recycling Rates on a Regional Level
- Solid Waste and Packaging Waste: Meeting ambitious Recycling Rates
- Separate Collection of Bio-Waste: Practical Challenges and Implementation
- Preventing Food Waste and Strengthening Sustainability of the Food System

Structure of the European Conference

This European Conference was held over a period of two days and was unique regarding the speakers and attendees. Its aim was the transfer of expert knowledge as well as the European exchange of experiences between the attendees.

Attendees of the European Seminar

A variety of high-ranking representatives from all EU Member States participated in this European Conference to benefit from the broad knowledge of experienced and qualified speakers.

Dipl.-Jur. Christoph Brauner, MBA (Kellogg/WHU)
