19 April 2002

Dear Herr Obermeier,

5th European Gasification Conference

Please accept my apologies for the delay in writing to you but I have only just returned to the UK after the conference. On behalf of the Organising Committee, I should like to thank you very much indeed for chairing the Session on biomass and wastes. Delegates felt the whole conference went very well especially that session where much attention is being focused as a result of the EU thinking on renewables. Certainly, the recovery of energy from waste streams seems to be moving up the political agenda as people slowly recognise that it is a fundamental example of sustainability.

May I also thank you for all the hard work you put in to preparing the paper for the Workshop and the arrangements for Alec Henderson to present it when you recognised that your commitments precluded you from getting to the conference on the Monday afternoon.

I look forward to meeting you again at our next conference in 2 years time.

Yours sincerely,

David J White
Chairman – Organising Committee
